Total	2(2)*		1(1)*

* The quota places allocated to the Host NOC would be taken from the lowest ranked NOC(s) in the respective event.

4. Type of Allocation of Quota Places

- Athlete quota places will be allocated to the respective NOC and not to Competitor(s) that achieved the place in the qualification event.
- An athlete can qualify and compete in one or more events; however the athlete can only acquire one athlete place for its NOC regardless of how many places or boats that athlete qualifies in other events.

For example, Athlete A qualifies in K1 and K2 with athlete B from the same NOC. This would result in two athlete quota places and two boats being eligible for the European Games. The quotas would be attributed to the largest boat category qualified, in this example it would be K2. The third athlete quota would be reallocated according to the unused athlete quota places process in the K1 category.
